La tradizione che lega Listone Giordano alla cultura del legno si alimenta e consolida nelle foreste di Borgogna, in Francia, dove da molti anni viene curata la selezione delle migliori materie prime. Qui la gestione forestale si svolge attraverso un ciclo integrato che abbraccia un periodo di oltre 180 anni.

Listone Giordano ha intrapreso da tempo un cammino in direzione del rispetto e utilizzo consapevole delle risorse naturali, della capacità di controllo sulla provenienza delle materie prime e della tracciabilità lungo l'intero processo produttivo in uno stabilimento produttivo perfettamente integrato in un contesto paesaggistico di pregio nel cuore dell'Umbria.

Era il 1984 quando da un'ingegnosa intuizione del prof. Guglielmo Giordano, nasceva un pavimento in legno dalle caratteristiche rivoluzionarie, che superava i limiti del parquet tradizionale e inaugurava una nuova era. Stabilità, precisione, affidabilità, bellezza, durata ed ecologia restano ancora oggi le parole chiave di questo straordinario successo. Le frontiere più avanzate di nuove forme e superfici si fanno interpreti del design contemporaneo.

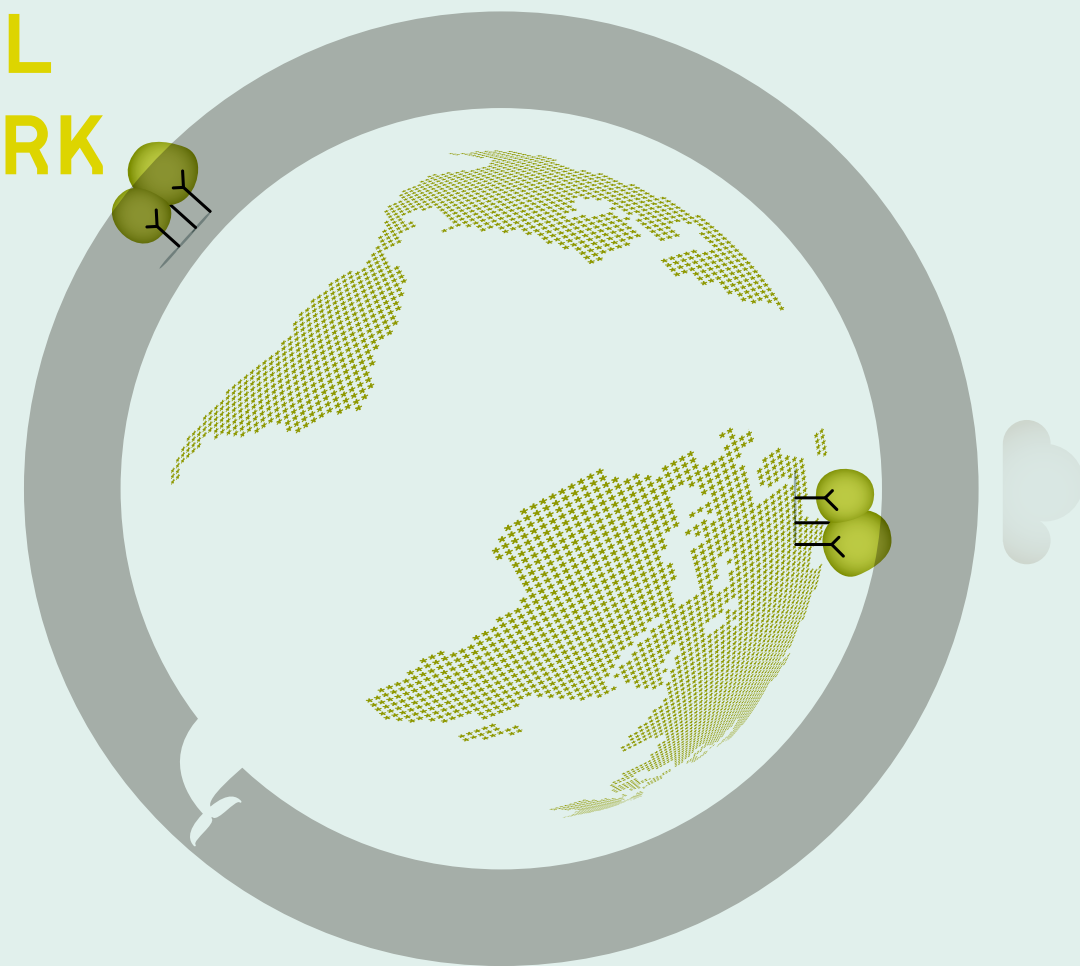

The tradition that links Listone Giordano to the culture of wood is established in the forests of Burgundy, in France, where the best raw materials have been selected for many years. The forestry management in this area embraces an integrated cycle of more than 180 years.

Listone Giordano long ago began moving in the direction of the responsible use of natural resources, checking the origins of the raw materials and ensuring traceability throughout the entire production process, in a perfectly integrated and sustainable production plant in the heart of Umbria.

It was 1984 when Prof. Guglielmo Giordano ingeniously conceived a hardwood flooring of groundbreaking characteristics that improved the limits of traditional hardwood flooring and inaugurated a new era.

Stability, precision, reliability, beauty, long-life and respect for the environment are still the keywords to this huge success. The most advanced frontiers of the new shapes and surfaces are reinterpreted in the name of contemporary design.

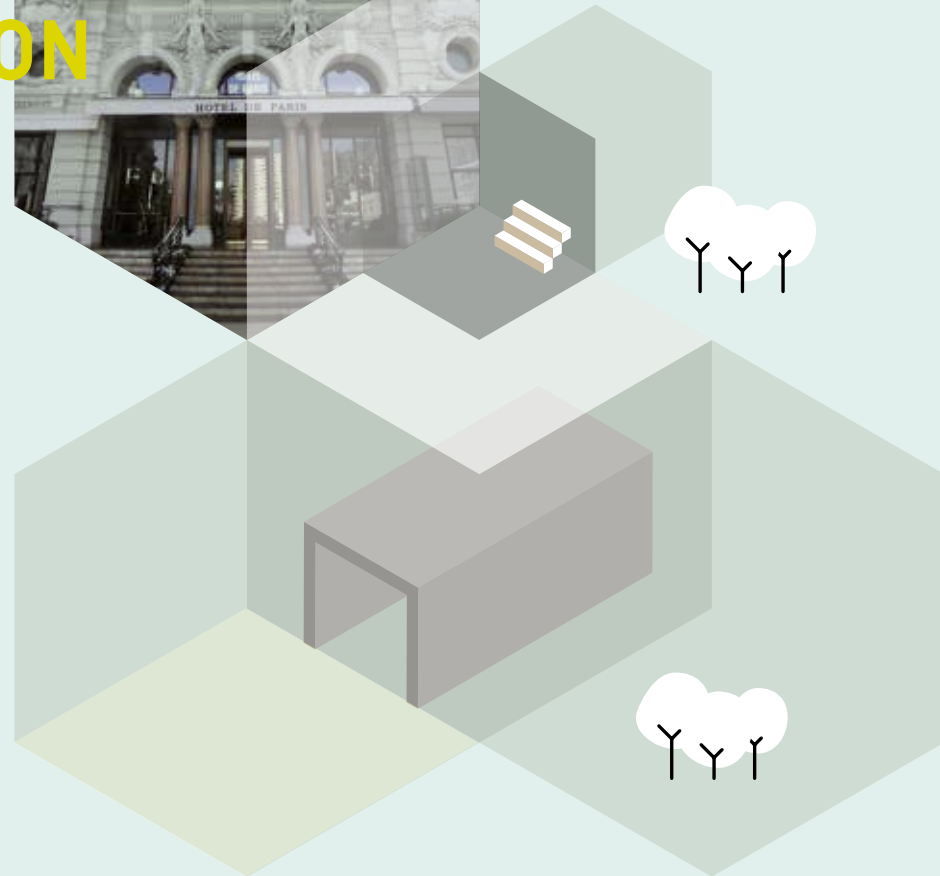

IL NETWORK MONDIALE GLOBAL NETWORK

Per estendere anche al sistema distributivo quella costante ricerca di qualità che accompagna il prodotto fin dalla selezione della materia prima in foresta, Margaritelli, a partire dal 1995, ha intrapreso un innovativo progetto commerciale ispirato al franchising che ha portato in pochi anni alla creazione di oltre 500 punti vendita nel mondo (Parigi, Londra, Barcellona, Città del Messico, Shanghai, New York, Pechino, ecc.), tutti dedicati al parquet, e caratterizzati da una forte immagine coordinata a marchio Listone Giordano. Tra i punti di forza del nuovo concetto di vendita spiccano gli evoluti sistemi espositivi per la presentazione e spiegazione dei prodotti, l'articolato sistema di comunicazione e marketing e l'innovativa gamma di servizi al cliente.

To extend the Company's quality commitment through a distribution channel that starts with the selection monitoring of raw material from the forests, Margaritelli since 1995 has embarked upon an innovative commercial franchising programme that has brought in few years to the creation of over 500 specialised hardwood - flooring retailers in the world (such as Paris, London, Barcelona, Mexico City, Shanghai, New York, Beijing, etc.) all devoted to the wood floor, and characterized by a strong image coordinated to mark Listone Giordano. Some of the most important aspects of the programme include the evolution of in-store product display systems, articulated communication and marketing concepts and innovative customer services.

DIVISIONE CONTRACT CONTRACT DIVISION

Listone Giordano, azienda interprete dei migliori valori del Made in Italy, ha saputo realizzare con successo sia lo sviluppo del canale Retail che quello delle forniture Contract.

Il sistema Contract è in continua evoluzione e si confronta ormai quotidianamente con il mondo della progettazione a tutto tondo in uno scenario mondiale; questo implica la necessità di seguire produzioni speciali e realizzazioni su misura in stretta collaborazione con studi di architettura e grandi contractor internazionali. Le collezioni Listone Giordano sono uno strumento nelle mani di progettisti, professionisti e designer che, come musicisti, sanno leggerle ed interpretarle, trovando la giusta nota "d'accordo" in armonia con il resto della loro creazione progettuale.

La realizzazione di pavimentazioni in legno "su misura" così come le forniture su larga-scala esprime il valore aggiunto e la forza dell'azienda. Inoltre, la presenza di personale tecnico specializzato ed altamente qualificato garantisce un servizio di "consulenza" evoluto ed un'interfaccia professionale tra l'azienda e il mondo della progettazione, con la possibilità di programmare interventi di posa in opera e servizio "chiavi in mano". L'incontro con importanti nomi del design e dell'architettura nazionale ed internazionale nel corso degli anni, ha rappresentato per Listone Giordano un'importante spinta verso l'innovazione e la ricerca di soluzioni creative ed inusuali.

Listone Giordano is a company that has been able to best embody Made-in-Italy values and successfully develop both the Retail and Contract Supplies channels. In a global context, Listone Giordano ever-evolving Contract system is confronted with the entire world of design on a daily basis; this implies the need to follow special production lines and manufacture tailor-made products jointly with architecture firms and major international contractors. These collections are a valuable tool in the hands of interior designers, professionals and architects who, just like musicians, can read, interpret them and finally find the right tuning note to play, in full harmony with the rest of their creative projects. The installation of "tailored" wood floors as well as the supply of large-scale projects are clear evidence of the Company's added value and strength. Moreover, the presence of skilled technical and highly qualified staff ensures an advanced consultancy service as well as a professional interface between the company and the design world, with the possibility of planning installation work and providing "turnkey" service. The encounter and collaboration with top names in design, alongside with national and international architecture over the years has been a major drive for Listone Giordano towards innovation and the search for creative, unusual solutions.
